Employee records

Administrative management of employees and colleagues (internal or external)

Employee contracts and amendments

Management of permanent and temporary employees, interns, agency staff, sub-contractors, etc.

Tracking of start/leaving dates

Tracking of training and medicals

Annual reviews, authorizations

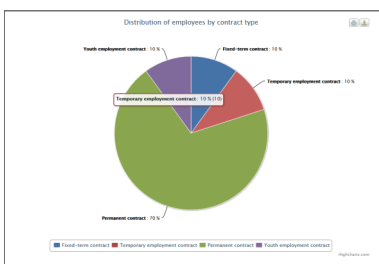

Personal details, salary, bonuses, etc.

Career history and key employee information

Accountability transferred to employees: Employees modify their own information (bank details, address, phone number), and the system notifies payroll

Email alerts regarding contract end dates and other key dates

Birthday email sent automatically to employees.

Human Resources Report

One-click export of all employee data in Excel format

Preparation of HR reports (reports can be configured)

List of employees, staff register

Headcount (by organization, qualification, contract type)

Gender breakdown

Staff leave and absence reports.

Automatic synchronization of employee database with any of the main payroll solutions on the market

Flexible tracking and administrative management of employees

Time savings and increased efficiency

Cost reduction

Digitization of documents and employee records, transition to a customized and secure environment

Employees can access electronic versions of their records

Elimination of data re-entry and the associated risk of errors

Automation, streamlining and standardization of processes

Multilingual (French, English, Spanish, German, Italian) and multi-company interface.
